# Introduction

**"Discover the Timeless Art of Lalejin Pottery"**

Welcome to Iran—a country known for its rich cultural heritage and outstanding craftsmanship. In western Iran lies the city of Hamedan, a place with ancient history and a vibrant cultural atmosphere. Visitors are drawn not only to its fascinating past but also to its stunning natural beauty. Hamedan, once known as Ecbatana and Hagmatana, is one of Iran's most important tourist destinations. It features attractions such as Ali Sadr Cave—the largest water cave in the world—the Mausoleum of Avicenna, a famous Iranian philosopher and physician, and the Tomb of Baba Taher, a well-known poet and mystic. Other highlights include Hegmataneh Hill, the Seven Castles from the Median era, and the Ganjnameh complex, which combines historical inscriptions with beautiful nature.
